KastlePresence®

MAKING SPACES SAFER, SMARTER AND MORE CONVENIENT

MOBILE HANDS-FREE ACCESS

The most convenient way to unlock secured doors – no hands required – using a mobile app. State-of-the-art dynamic keys mean the same signal is never used twice, for the safest, smartest access control, ever.

SECURITY FOR YOU, PERSONALLY

Response is a fingertip away with a virtual alert that is always with you and informs first responders of your location when you need emergency help. More precise than GPS, it's the panic button – unleashed.

IMPROVED SITE MANAGEMENT

Unlimited cloud-based credentials save you time and money. Mobile administration gives you the flexibility to add or revoke users, open doors, and view system alerts across your sites at anytime, from anywhere.

DATA INSIGHTS AND CONNECTIVITY

Drive optimum efficiency through site use data and trends. What's going on in your building? Be notified, or quickly find out with mobile notifications. New insights into space use mean new benefits for you.

EMERGENCY MASS COMMUNICATIONS - KastleAlert®

KastleAlert is a mobile mass communications system that is the fastest method to get the word out during any emergency event. By employing a crowdsourced approach, KastleAlert empowers anyone to immediately say something the instant they see something, and enables Incident Commanders to deliver timely communications and guidance to all those affected.
