Kastle Systems Appoints Glenn Felson as President of the Northeast Region

Felson will oversee the largest commercial managed electronic security company in New York, consisting of Kastle Systems Northeast, Mutual Central Alarm Services and Stat Land Security Services.

FALLS CHURCH, VA (May 23, 2016) – Kastle Systems, the industry leader in advanced managed security systems and services, announced today that they have appointed Glenn Felson, former Senior Vice President and General Manager of New York & Affiliates for William Raveis, one of the largest Real Estate brokerage and service providers in the country, as President of the Northeast Region of Kastle.

Kastle's Northeast Region is now the largest commercial managed electronic security company in New York and is comprised of Kastle Systems' Northeast, Mutual Central Alarm Services and Stat Land Security Services. This structure will enable Kastle to leverage the combined resources of the three companies to better meet the needs of clients, enable unprecedented growth in all three business units and expand into other Northeast geographies and new verticals. With a history of over 45 years in the New York area, the Kastle Northeast Region protects over 6,200 sites for leaders in commercial real estate, prominent financial services clients and marquee retail brands - and secures tenants in iconic buildings such as The Empire State Building and 200 Park, i.e. The MetLife Building.

Felson has been recognized throughout his career for being a visionary sales leader leveraging in-depth knowledge of the marketplace and the competitive landscape to significantly increase revenue. Bringing extensive New York City real estate knowledge and business experience, this addition to the executive team reinforces Kastle Systems' ongoing commitment to industry-leading quality of service and high organic growth in major markets across the US.

Felson developed his deep New York City real estate industry expertise and customer orientation at Realogy and that experience will complement Kastle's dedication to providing world-class service to its clients – many of whom are leaders in the commercial real estate industry. During Felson's tenure, he quickly progressed to Regional Vice President overseeing all Franchise Sales and Mergers & Acquisitions for the Northeast United States to include Northern Virginia, Maine, New York, New Jersey and Pennsylvania.

"We put a significant amount of energy into finding the perfect fit for this executive position, and I believe that we found that in Glenn Felson," said Piyush Sodha, Co-chairman and CEO of Kastle Systems. "He has extensive sales and management experience, as well as relevant knowledge acquired from over a decade in the real estate industry which will help us execute our aggressive growth plans for New York and expand into new verticals and markets in the Northeast."

"I am thrilled to be joining such a fast growing and innovative company with exceptional customer service. I am looking forward to leveraging my knowledge and experience to help Kastle pursue the vision shared by the company's leadership," said Felson.
