VISITOR

KASTLE FrontOffice

IMPROVED SECURITY WITH EFFICIENT VISITOR PROCESSING

Kastle FrontOffice enhances security and elevates the professionalism of your facility. Designed specifically for commercial real estate, and fully integrated with your Kastle access control system, Kastle FrontOffice is a single, unified solution that optimizes personnel and visitor management. Complement your security package with a complete visitor processing solution including photo verification and personalized employee badges.

First-on-Market | **Patent**-Pending

KASTLEVisitor

Integrated with Microsoft Outlook, KastleVisitor streamlines and expedites the visitor registration process from check-in to credential management. This easy-to-use solution will increase visitor registration, improve the security of your facility, and enhance the visitor experience.

ENHANCED BUILDING SECURITY

KastleVisitor enables advanced notice of expected visitors, real time information on visitor location and control of visitor authorization. It can also enable and disable access according to a defined visitor schedule.

REFINED TENANT AMENITY

KastleVisitor delivers a better experience for tenants and their guests. The simple and quick invitation and registration process reduces frustrations and delays commonly experienced at many facilities.

IMPROVED PRODUCTIVITY

KastleVisitor reduces staff time on administrative functions freeing your security personnel to focus on service and security.

Enabled by KASTLE FrontOffice, KASTLEVisitor integrates seamlessly with your existing system and delivers unmatched convenience.
