

MAKING SPACES SAFER, SMARTER AND MORE CONVENIENT

KastlePresence

REDEFINING THE MODERN WORKPLACE EXPERIENCE

KastlePresence is a Smart Office Platform built on the latest in mobile and Internet of Things technology. Cutting-edge features including hands-free access capabilities, location-based services, personalized security, and powerful occupancy data deliver next generation experiences to your workplace.

HANDS-FREE ACCESS

The most convenient way to access your secured office and building, hands-free, while meeting the strictest of security standards, customized to your needs.

SECURITY FOR THE INDIVIDUAL

Help is just a swipe away with a virtual alert function that follows you throughout the building, with granular data to inform & enable the best first-responder action.

LOCATION-BASED SERVICES & AMENITIES

What's going on in your building? Understand amenity room usage, gym availability, and more with data at your fingertips. Utilize instant notification capabilities for easy outreach to all employees & tenants.

OCCUPANCY INSIGHTS

For the first time ever, see near-real-time space usage data and patterns over time to drive operational efficiency & excellence.
