

# MULTIFAMILY SECURITY

Kastle Systems is the nation's leading security provider to real estate owners and managers. We provide you with expertly designed and integrated solutions for security and life safety in multifamily environments. With Kastle, you gain a partner to manage your security and risks as opposed to a vendor who sells off-the-shelf products that you are responsible for managing and maintaining yourself. We combine all facets of security including video, access control and administration and put them at your fingertips - wherever you are.
