

REMOTE VIDEO GUARDING SOLUTIONS

FOR MEMBERS OF THE INSTITUTE OF SCRAP RECYCLING INDUSTRIES, INC.

KASTLE IS THE RIGHT CHOICE IF...

You need an integrated video network in place to monitor your facility.

You want continuous live monitoring at your facility 24/7, in real time, instead of finding out after the fact.

You need to monitor for OSHA compliance to ensure that your facility maintains the highest standards.

You want to increase your operational efficiency.

You don't have the knowledge or resources to manage surveillance in-house.

THE KASTLE MANAGED VIDEO PLAN AND ADVANCED TECHNOLOGY PROVIDES...

- Accountable, Monitored Security
- Web-Enabled Managed Video Systems
- Advanced Video Analytics
- A Central Database
- License Plate Recognition
- Portfolio Account Management
- Central Service Dispatch
- Audio Deterrence

Additionally, KASTLE offers the following benefits targeted specifically for Scrap Recycling Industry:

- Fraud and collusion prevention through tracking
- Remote safety inspection and audit
- Improved security through remote video guarding services
- Monitoring for regulatory compliance
- Real-time loss prevention
