

# KASTLE SIGNATURE READER

---

## PERSONALIZED ACCESS READERS COMPLEMENT YOUR DESIGN

The design and aesthetics of your facility are an important part of your total work environment and a significant amount of effort and expense go into achieving the optimal atmosphere. Unfortunately, the technologies that keep your business running can often be aesthetically inconsistent with the design theme of your space. No longer. Finally, there is a way to enter your space that is both beautiful and functional: the Kastle Signature Reader.

Priced at just a slight premium to basic models, the Kastle Signature Reader allows you to blend intelligent security with pleasing aesthetics. With your company logo etched into a crystal clear back-lit facade, customization enhances the overall design of your space, impresses visitors and reinforces your corporate brand. With a variety of frames and finishes, you can design these readers to complement any environment and meet your specifications. Who knew security could look this good?
