

myKASTLE

THE POWER OF SECURITY AT YOUR FINGERTIPS

myKastle is the world's leading software for managing real estate properties. This intuitive, cloud-based solution allows you to manage your security system remotely 24/7 by simply logging on to any web-enabled device. With a simple, user friendly interface, myKastle increases productivity and saves you money whether you are a small business or a large enterprise with multiple locations. Innovative features and upgrades are provided automatically at no cost without lengthy installations or downloads. The key features of myKastle allow you to:

MANAGE ACCESS

Keep personnel information and photos up to date, control personnel access, and manage visitors more efficiently.

VERIFY ALARMS

View alarm status and confirm incidents through live video clips and recorded snapshots.

CONTROL YOUR SYSTEM

Control your system with ease, view activity status and your emergency contact procedures. Easily lock or unlock doors and turn system monitoring on or off.

MASS NOTIFY

Send customized messages to your employees or tenants, via email or text, from anywhere.

PURCHASE SUPPLIES

Use the myKastle store to order supplies such as cards phone tags and accessories.
