

SOCIAL DISTANCING

View Real-Time Occupancy of Building Zones

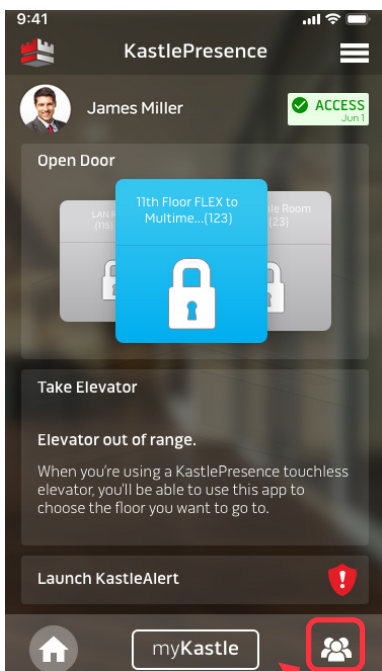

The GLIMPSE feature on KastlePresence® enables tenants to enjoy amenities without overcrowding by checking occupancy levels in advance.

Building occupants want to know that their workplace is doing all it can to keep the premises healthy and safe if they are being asked to return to the workplace.

Glimpse provides the building with a tool for its tenants to help them feel comfortable in the space.

It shows approximate occupancy levels of shared amenities like fitness centers and office kitchens, which provides tenants with the information they need to decide when they want to visit.

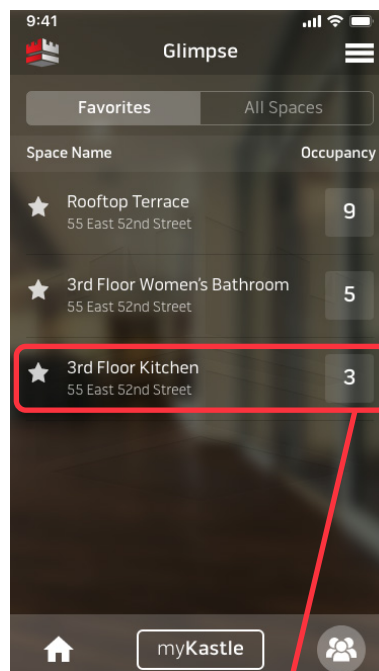

HOW DOES IT WORK?

GLIMPSE ICON

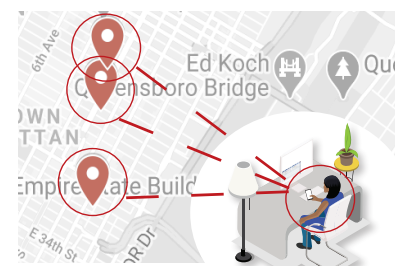

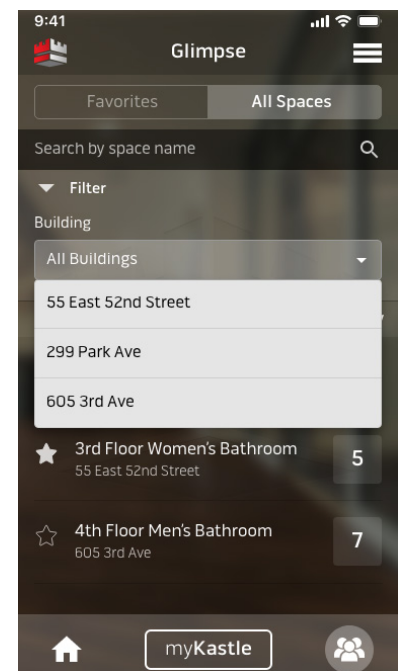

Open your KastlePresence app and select the Glimpse icon.

3RD FLOOR KITCHEN

See the approximate occupancy for any of your favorite spaces.

Use the "All Spaces" page to see all the spaces to which you have access.
