

KastleVideocom

Easy control of visitor access for apartment residents and managers.

The KastleVideocom syncs with the Kastle access system, enabling residents and managers to remotely grant visitor door entry and monitor access activity from management portal and KastleResident app.

Simple Video Intercom Installation

Seamless Integration with KastleResident App & Management Portal

Easy Auditing of Access Activity Including Video Records

Instant Upgrade to Resident Experience and Overall Security

KastleVideocom Access Control Options:

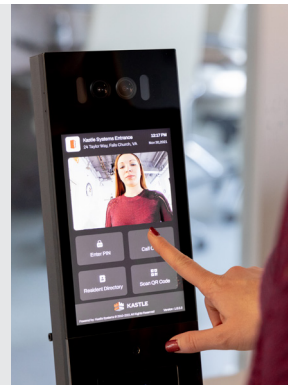

QR Code Scan:

Visitors receive temporary QR code to scan in text invite from resident

Dial Office:

Direct keypad dial to front office to request door unlock

PIN Code Access:

Management gives pre-assigned digital keypad codes to approved delivery vendors

Video Call to Resident:

Video call from intercom to resident's smart phone to remotely unlock using app
