# Kastle**Resident**®

Property-wide smart access technology that is highly secure, provides an exceptional resident experience, and delivers streamlined operational efficiency.

Access Control
Smart mobile access provides the highest level of property security, ultimate user convenience from amenities to unit door, and robust activity reporting.

Resident Experience
Property-wide mobile access integrated with amenity apps, and exceptional security from parking to unit.

Visitor Management
Residents easily grant secure single or repeat entry to visitors, deliveries, and services.

Cloud Video Surveillance
More security without guard costs with cloud-based video, AI-enabled cameras, and live remote monitoring.

Building Integration
Seamlessly integrates with property management software and regulates access across amenities.

Smart Elevators
Elevators integrate with mobile access to only allow entry to users with access rights and transport them only to their assigned floor.

Vehicle Gates
Smart mobile access integrates with vehicle gates to only allow parking entry to users with access rights.

Self-Guided Tour
Enables freedom for prospects to securely self-tour across units and amenities saving agents' time.
